Rockpool Rambles

ANIMAL ESTATE AGENTS

An animal's home is a place where it lives and gets the things it needs to survive. This whole area is called it's Habitat. Work with a friend to examine an animal that lives on the seashore, and it's home.

Name of animal

Description of home

Is this home: out in the open; undercover; underground; in a rockpool?

In order to live this animal needs:

This animal eats:

Distance from this animal's home to its food supply:

Who are this animal's predators
